

“The child of this age sets out to do a certain task, perhaps an absurd one to adult reasoning, but this matters not at all; he must carry out the activity to its conclusion. There is a vital urge to completeness of action, and if the cycle of this urge is broken, it shows in deviations from normality and lack of purpose. Much importance attaches now to this cycle of activity, which is an indirect preparation for future life.”

Maria Montessori, Education for a New World, Page 45
