

“The mind of the child takes elements from the environment and incarnates them into his being. This does not happen through heredity, but is the consequence of a creative potential within the child. All children in the world follow this law, in the same way, with the same intensity. The creative potential of the child is not the prerogative of one race or another; it is inherent in the nature of the child.”

Maria Montessori, *Citizen of the World*, Page 93
